Start with storage for a few keys or compartments and then expand in step with the growing need. 9000 S Series can be expanded by adding expansion cabinets connected to a main cabinet
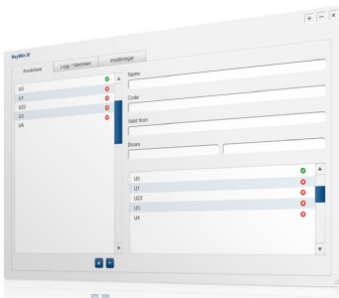

9000 S Series
- Keypad for entering codes and programming
- Programmable via KeyWin Light PC Software

KeyWin is a software that simplifies your work in a flexible and easy to grasp way. You can monitor and control both key management and storage of valuables. KeyWin is easy to grasp and very simple to administer. All events are registered and saved in KeyWin. KeyWin Light is used with the system series

9000 S Series Expansion Cabinets
Can be connected to the 9000 S Series main cabinet in any combination
